About Us

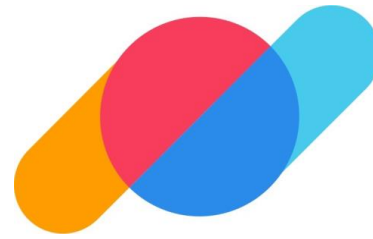

SkillKwiz
How much do you know?

SkillKwiz is a company focused on helping enterprises revolutionize their talent acquisition strategy. As the world moves fast towards a knowledge-driven workforce, our one-point endeavor is to assess hard skills in people quantitatively and aid organizations to

- Standardize and accelerate the talent acquisition process.
- Build a workforce management strategy based on skills.
- Benchmark their workforce against the industry and gain market advantage.

In the process, we also help knowledge workers around the world assess themselves and realize their full career potential.

Vision

Carve a niche for ourselves as the world's leading talent assessment organization and serve as the gateway for enterprises to acquire skilled knowledge workers.

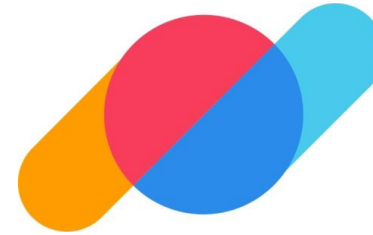

Mission

Build and maintain the world's largest skill-testing library and conduct assessments in a secure, fair, and transparent manner to help enterprises with a standardized and faster talent acquisition journey.

Purpose

Create stakeholder value by providing best-in-class services with a singular focus on assessing talent.

The Team

SkillKwiz
How much do you know?

Venugopal B A

Founder and CEO, SkillKwiz

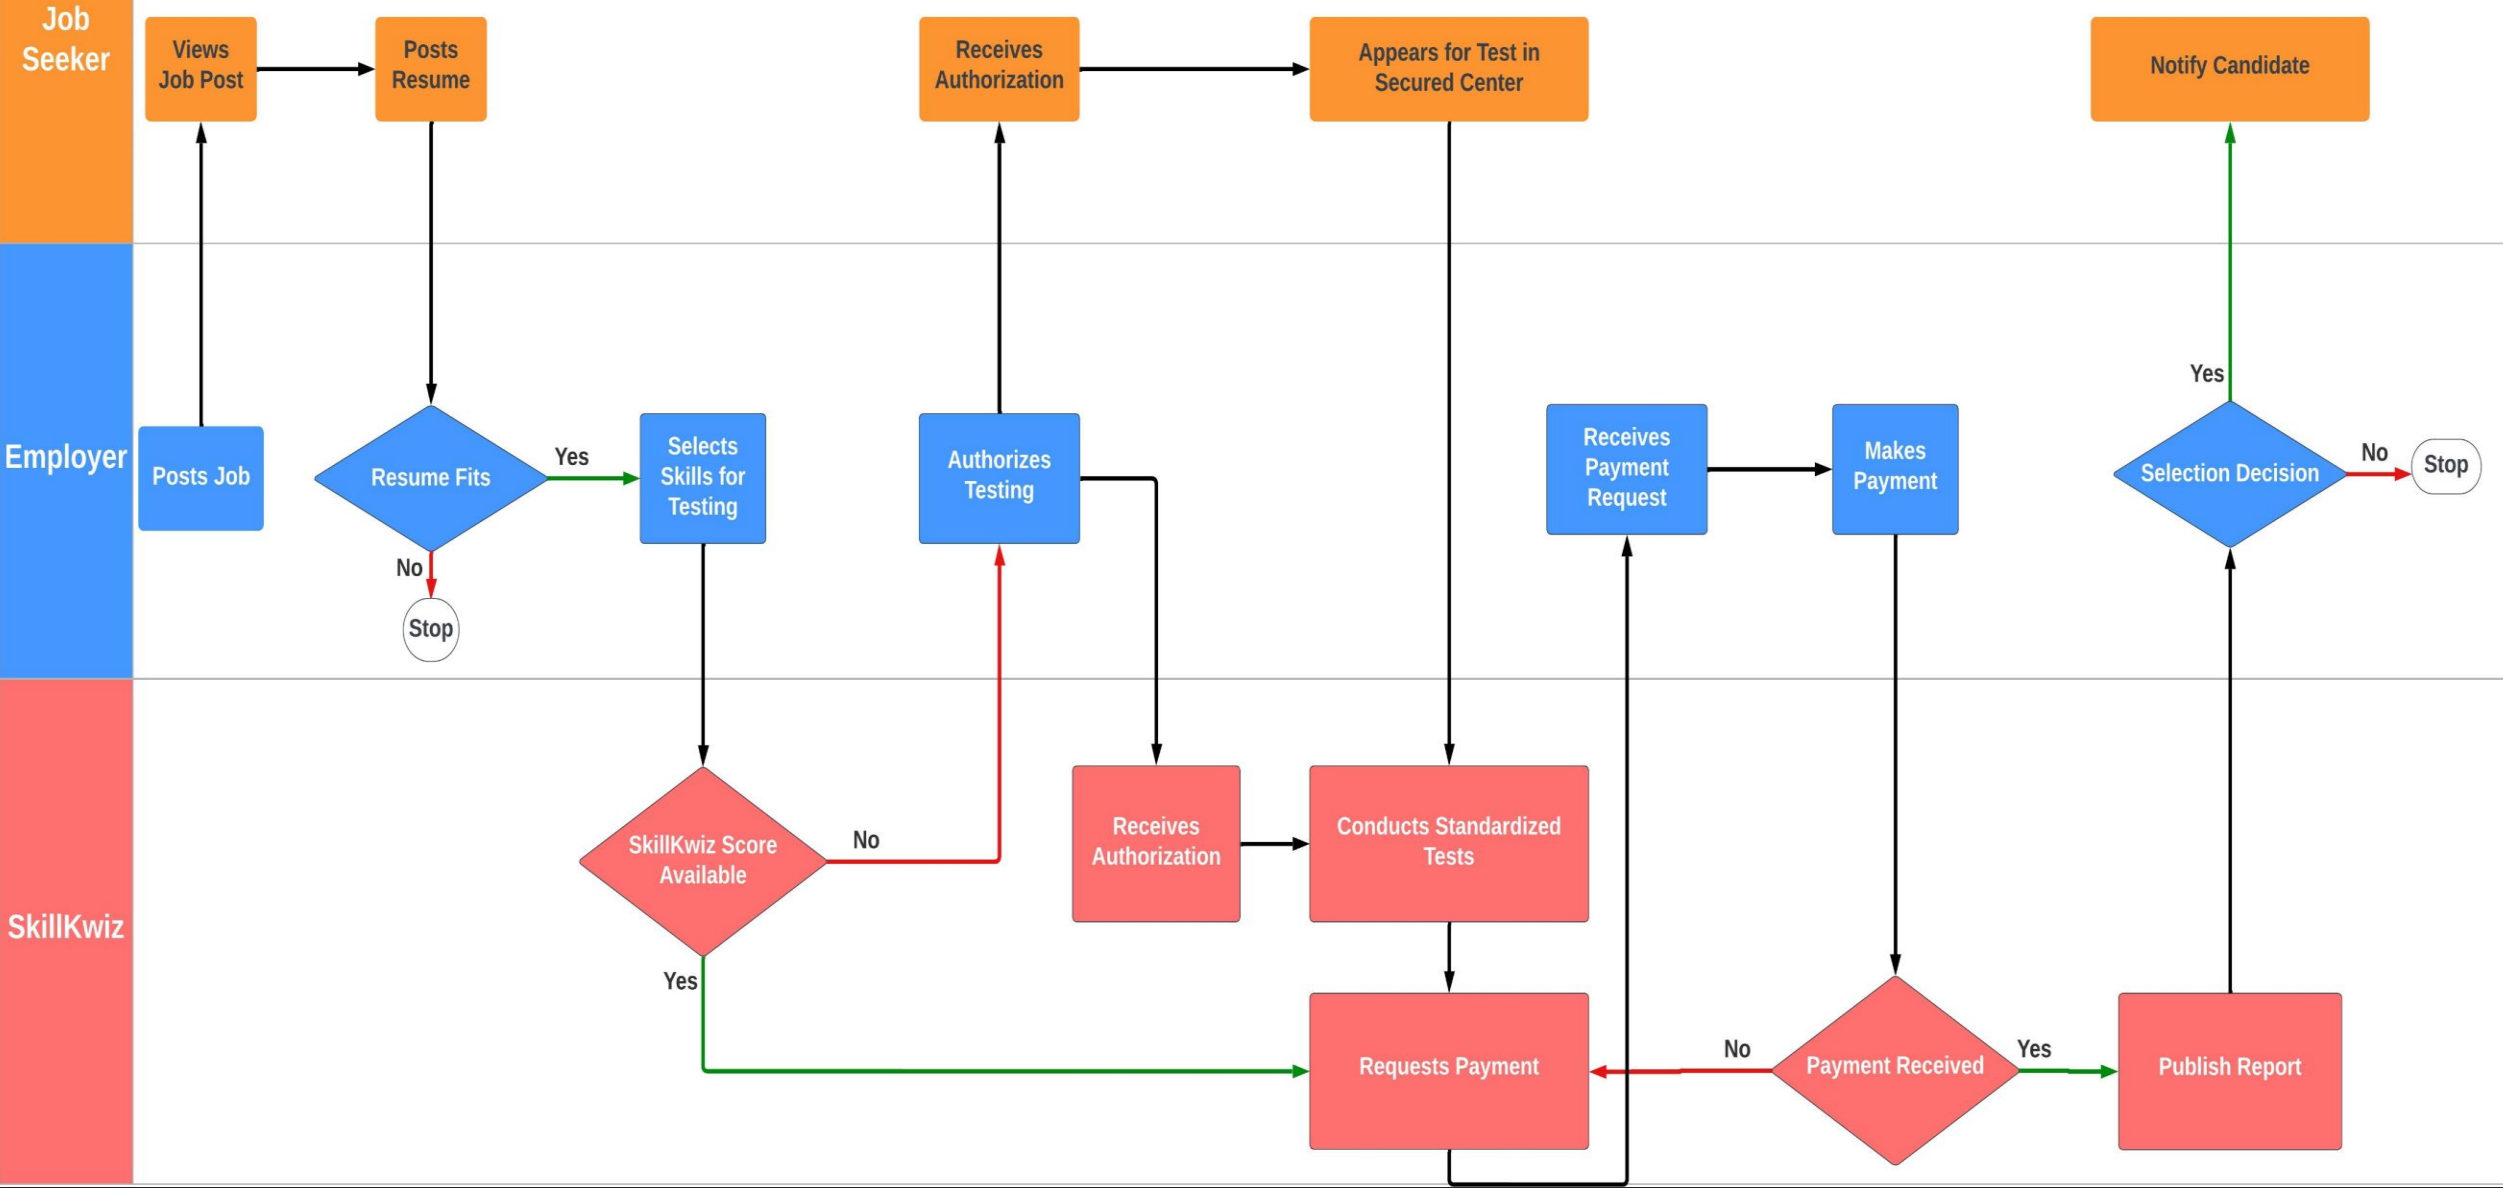

Venugopal B A (Venu) is a seasoned technology industry executive with over 22 years of experience with such firms as Wipro, HCL, Cognizant, Capgemini, Sutherland, and Span Infotech.

In his role managing the challenges of day-to-day operations of technology services firms, he envisioned the charter for an organization that could take on the challenges of assessing people's skills in a scientific and quantitative manner. He aimed to create an enterprise that could partner with organizations by helping them with technical evaluation and decision-making in the recruiting process. Thus, SkillKwiz was born.

In his role as CEO of the company, Venu engages in making strategic decisions that steer the company in its current phase of growth. His experience plays a valuable role in streamlining the operations of the company to achieve its stated goals and objectives. Leading management teams, providing technology thought leadership, bringing innovation, mentoring next-generation leaders, and delivering value to stakeholders, he wishes to take SkillKwiz to great heights of success.

An **MBA** from the **State University of New York**, **PMP** credentials, and an **Engineering Degree** have helped him shape his business and technology vision.
